Teacher-Coordinator  
Trade and Industrial Education

May 2, 1963

Dr. Kelly Thompson, President  
Western Kentucky State College  
Bowling Green, Kentucky

Dear Dr. Thompson:

I do not know the status of the plans for a new building to house our vocational program. I understand that a site is available for the building when plans and finances are ready. I have been informed that financial arrangements may not be made before the next general assembly meets in January.

I would like to suggest that the present basement and foundation of the Pavilion, which is being taken down, might be incorporated in a new building for the vocational school.

The basement rooms would certainly be extremely useful to store the supplies and equipment necessary for our operation. Such shops as Welding and Auto Body Repair could be housed in the lower level of the building.

We would certainly like for the building to be located on the Western Campus. We have had splendid relations with the college for many years. In the future, if State and Federal regulations would permit, we would be glad to work out a cooperative arrangement with the college to train students as has been suggested by you and the Dean.

Concerning the building, please consider this as a suggestion on my part. If there is anything I might do to hasten the reality of a new vocational school building, please let me know.

Yours truly,

Phillip C. Hampton  
Area Director
